A video resurfaced this week of Georgia Democratic Senate candidate Raphael Warnock calling on people in the United States to “ repent ” for their support of President Trump and their “ worship ...

~~Georgia Senate candidate Raphael Warnock: People in US ...~~

Warnock ’ s mentor, Dr. James Cone, fought against “ satanic whiteness ” and called for the “ destruction of everything white ” in society. Warnock also criticized white evangelical Christians and Catholics right after the 2016 presidential election for supporting Trump and charged that Trump campaigned in 2016 as a “ fascist, racist, sexist, xenophobe ” :

Pushing the boundaries of Asian American educational discourse, this book explores the way a group of first- and second-generation Hmong students created their identities as new Americans in response to their school experiences. Offering an opportunity to rethink the norm, this important volume pays particular attention to how race, class, and gender informed their experiences. Revealing the complex dynamics between immigration and Americanization, this engaging volume: shows how the culture of middle-class whiteness at a public high school in Wisconsin excluded and alienated Hmong American students, and how these students responded; focuses on the ways the academic and social experience at school, including peer relationships, extracurricular participation, relationships with teachers, and academic achievement influenced identity construction; makes connections between the experiences of one ethnic group of immigrant youth and the broader issues of race in the United States, showing how schools can better serve immigrant students of colour.

The second edition of *Unraveling the "Model Minority" Stereotype: Listening to Asian American Youth* extends Stacey Lee ’ s groundbreaking research on the educational experiences and achievement of Asian American youth. Lee provides a comprehensive update of social science research to reveal the ways in which the larger structures of race and class play out in the lives of Asian American high school students, especially regarding presumptions that the educational experiences of Koreans, Chinese, and Hmong youth are all largely the same. In her detailed and probing ethnography, Lee presents the experiences of these students in their own words, providing an authentic insider perspective on identity and interethnic relations in an often misunderstood American community. This second edition is essential reading for anyone interested in Asian American youth and their experiences in U.S. schools. Stacey J. Lee is Professor of Educational Policy Studies at the University of Wisconsin – Madison. She is the author of *Up Against Whiteness: Race, School, and Immigrant Youth*. “ Stacey Lee is one of the most powerful and influential scholarly voices to challenge the ‘ model minority ’ stereotype. Here in its second edition, Lee ’ s book offers an additional paradigm to explain the barriers to educating young Asian Americans in the 21st century—xenoracism (i.e., racial discrimination against immigrant minorities) intersecting with issues of social class. ” —Xue Lan Rong, University of North Carolina at Chapel Hill “ Breaking important new theoretical and empirical ground, this revised edition is a must read for anyone interested in Asian American youth, race/ethnicity, and processes of transnational migration in the 21st century. ” —Lois Weis, State University of New York Distinguished Professor “ Clear, accessible, and significantly updated... The book ’ s core lesson is as relevant today as it was when the first edition was published, presenting an urgent call to dismantle the dangerous stereotypes that continue to structure inequality in 21st century America. ” —Teresa L. McCarty, Alice Wiley Snell Professor of Education Policy Studies, Arizona State University Praise for the First Edition! "Sure to stimulate further research in this area and will be of interest to teachers, teacher educators, researchers, and students alike." —Teachers College Record "A must read for those interested in a different approach in understanding our racial experience beyond the stale and repetitious polemics that so often dominate the public debate." —The Journal of Asian Studies “ Well written and jargon-free, this book... documents genuinely candid views from Asian-American students, often laden with their own prejudices and ethnocentrism. ” —MultiCultural Review

*Resisting Asian American Invisibility* highlights one group's struggle for educational justice. Based on in-depth ethnographic research in formal and informal educational spaces, this book argues that Hmong American youth are rendered invisible by dominant racial discourses and current educational policies and practices. The book illustrates the way that Hmong American students are erased by the Black and White racial paradigm and the Asian American pan-ethnic category that perpetuates the model minority stereotype. Furthermore, Lee and a team of Southeast Asian American graduate student researchers explore how current educational policies around English learners marginalize Hmong youth. Far from being passive or silent victims, Hmong American communities actively resist their invisibility through various forms of educational advocacy and community-based education. In the tradition of critical ethnography, the author and her research team also look at what these individual and local stories expose about larger social forces, norms, and institutions. Book Features: Focuses on a Southeast Asian American group that has gotten little attention in education literature. Highlights the unique histories and educational experiences, concerns, and challenges facing Hmong American students in a Midwest city. Examines both school and community-based educational spaces. Draws on research conducted as a follow-up study to the author's book, *Up Against Whiteness: Race, School, and Immigrant Youth*.

What does it mean to be young, American, and white at the dawn of the twenty-first century? By exploring this question and revealing the everyday social processes by which high schoolers define white identities, Pamela Perry offers much-needed insights into the social construction of race and whiteness among youth. Through ethnographic research and in-depth interviews of students in two demographically distinct U.S. high schools—one suburban and predominantly white; the other urban, multiracial, and minority white—Perry shares students' candor about race and self-identification. By examining the meanings students attached (or didn't attach) to their social lives and everyday cultural practices, including their taste in music and clothes, she shows that the ways white students defined white identity were not only markedly different between the two schools but were considerably diverse and ambiguous within them as well. Challenging reductionist notions of whiteness and white racism, this study suggests how we might go "beyond whiteness" to new directions in antiracist activism and school reform. *Shades of White* is emblematic of an emerging second wave of whiteness studies that focuses on the racial identity of whites. It will appeal to scholars and students of anthropology, sociology, and cultural studies, as well as to those involved with high school education and antiracist activities.

An honest explanation about how power and privilege factor into the lives of white children, at the expense of other groups, and how they can help seek justice. --THE NEW YORK TIMES \*\*A WHITE RAVEN 2019 SELECTION\*\* NAMED ONE OF SCHOOL LIBRARY JOURNAL'S BEST BOOKS OF 2018 *Not My Idea: A Book About Whiteness* is a picture book about racism and racial justice, inviting white children and parents to become curious about racism, accept that it's real, and cultivate justice. This book does a phenomenal job of explaining how power and privilege affect us from birth, and how we can educate ourselves...*Not My Idea* is an incredibly important book, one that we should all be using as a catalyst for our anti-racist education. --THE TINY ACTIVIST Quite frankly, the first book I've seen that provides an honest explanation for kids about the state of race in America today. --ELIZABETH BIRD, librarian "It's that exact mix of true-to-life humor and unflinching honesty that makes Higginbotham's book work so well..."--PUBLISHERS WEEKLY (\*Starred Review) A much-needed title that provides a strong foundation for critical discussions of white people and racism, particularly for young audiences. Recommended for all collections. --SCHOOL LIBRARY JOURNAL (\*Starred Review) A necessary children's book about whiteness, white supremacy, and resistance... Important, accessible, needed. --KIRKUS REVIEWS A timely story that addresses racism, civic responsibility, and the concept of whiteness. --FOREWORD REVIEWS For white folks who aren't sure how to talk to their kids about race, this book is the perfect beginning. --O MAGAZINE

Demonstrates how ingrained ideas of race created and sustain the achievement gap in U.S. schools.

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people'" (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

Any serious consideration of Asian American life forces us to reframe the way we talk about racism and antiracism. The current emphasis on racial identity obscures the political economic basis that makes racialized life in America legible. This is especially true when it comes to Asian Americans. This book reframes the conversation in terms of what has been called "racial capitalism" and utilizes two extended case studies to show how Asian Americans perpetuate and resist its political economy.

In recent years the popular media have described Vietnamese Americans as the quintessential American immigrant success story, attributing their accomplishments to the values they learn in the traditional, stable, hierarchical confines of their family. Questioning the accuracy of such family portrayals, Nazli Kibria draws on in-depth interviews and participant observation with Vietnamese immigrants in Philadelphia to show how they construct their family lives in response to the social and economic challenges posed by migration and resettlement. To a surprising extent, the "traditional" family unit rarely exists, and its hierarchical organization has been greatly altered.

'...from time to time a study comes along that truly can be called 'path breaking,' 'seminal,' 'essential,' a 'must read.' *How the Irish Became White* is such a study.' John Bracey, W.E.B. Du Bois Department of Afro-American Studies, University of Massachusetts, Amherst The Irish came to America in the eighteenth century, fleeing a homeland under foreign occupation and a caste system that regarded them as the lowest form of humanity. In the new country — a land of opportunity — they found a very different form of social hierarchy, one that was based on the color of a person's skin. Noel Ignatiev's 1995 book — the first published work of one of America's leading and most controversial historians — tells the story of how the oppressed became the oppressors; how the new Irish immigrants achieved acceptance among an initially hostile population only by proving that they could be more brutal in their oppression of African Americans than the nativists. This is the story of *How the Irish Became White*.
